

# Spring 2026 Review

---

UAN TECHNOLOGY  
SUBCOMMITTEE

# Spring 2026 Tech Committee Highlights

---

- Digital SERF available for use; errors regarding hyperlinks in student emails were corrected
- Memo sent to Provost and Registrar Offices regarding Priority Registration Policy 3.08
- Memo sent to Registrar regarding Waitlisting to end on day Classes Begin
- Advising and Registration Companion (ARC) data gathered from college representatives to support tentative May 2026 testing phase
- Discussed concerns related to AI usage in a human-centered occupation; considered the advisor-advisee relationship and goals for learning; informed of AI initiatives through USC DoIT AI Educator, Mr. Adrian Anderson
- CRM Advise training proceeded mid-semester and utilization has begun prior to summer orientation; the CRM Advise Teams channel is available for inquiries and enhancement requests
- All graduate courses now have undergraduate eligibility due to accelerated and senior privilege
- Degree Works end-of-version service update arriving in late Summer 2026
- Advising challenges: students' utilization of existing tools; advisor roles in service, global messaging and student education regarding common requests
- Consideration for a need to clarify override requests on a universal level
